## Questions and Answers:

1. We did not see the number of nurses that you are requesting, please let us know your need and we will post our bid

We do not have this information available. These services are being made available to approximately 2,000 clients enrolled in our PROMISE program. Assessment and referral for services will be made based on client need by the PROMISE Care Managers.

2. I am inquiring about page 4 of the RFP where it is mentioned “The selected provider must operate a program that provides access to any adult individual seeking behavioral health services...”. I am a little confused if we are providing nursing services ONLY, or if we have to provide nursing services and a correlated medical program because in the Scope of Services section on page 48, it mentions that we have to provide nursing services and does not mention a program.

These nursing services are being offered via this RFP only to behavioral health clients enrolled in our PROMISE program. Assessment and referral for services will be based on client need. Awarded vendors will be providing Nursing Services to clients referred via the PROMISE Care Managers.
